# School Background

In support of the call for all-round development of youths in Hong Kong, Lam Tai Fai Charitable Foundation proposed to establish a quality secondary school under the Direct Subsidy Scheme in 2002. The school started its operation in September 2004, offering an innovative and broadening curriculum with special emphasis on Fashion Design, Sports Development, Health Education and Innovative Technology.

Lam Tai Fai College caters for students who pursue for academic excellence and show potential or have proven talents in sports, fashion design and innovative technology. With the expertise and professional support from the school sponsoring body, the College endeavours to develop its teaching team, curriculum, pedagogy and facilities to the best possible standards.

## School Mission

The College aims at nurturing wholesome personal growth and the intellectual development of youths through a comprehensive, challenging and broadening curriculum that enhances academic, aesthetic and physical development.

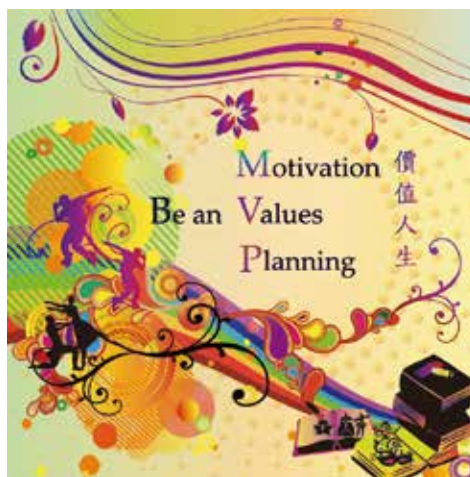

## School Vision

The College aspires to lead local education by integrating academic, sports and innovative design in learning activities so as to develop and nurture future community leaders, sports professionals, accomplished academics, upright citizens and cultured individuals of the 21st century.

## Theme of the Year 2016-2017

# Art and Fashion Design at Lam Tai Fai College

Lam Tai Fai College highly values students' aesthetic talent and artistic potential manifested in the provision of a comprehensive mix of curriculum initiatives and all-round student development programmes. Art and Fashion Design is one of our Focused Learning Areas. We not only have provided our students with knowledge in Art and Design, but also striven to inspire among them greater interest in art and to nurture their natural talent in artistic & aesthetic expression.

In the course, we aspire to enhance our students' generic skills through exposing them to every step of the whole process of fashion design. To further develop students' problem-solving skills, hands-on practice in fashion production is required. To provide opportunities for artistic expressions and to nurture the sensitivity in making aesthetic judgment, we lay strong emphasis on inspiring and tapping students' potential in Visual Arts. To unleash creativity and cherish diversity of talents, we organize the Annual Fashion Show.

Our Annual Fashion Show serves as a showcase for the application of multi-disciplinary and multiple skills in the form of project-based learning. It does not merely provide a valuable learning platform for our Art & Design students but also an essential learning experience for all students as a whole. The theme of this year is "Oriental Extreme", and innovative 3D printing techniques are employed in the design of fashion accessories. Students' designs, inspired by Chinese Culture, will be presented on the catwalk and awards will be given to talented and promising student designers.

In its thirteenth year, the school has grown from strength to strength. We were rewarded with very remarkable achievements in various Arts awards and competitions. We have started a new Art Scheme: "Classroom on the Spot" this year. In this scheme, we organized Beijing Art and Design Study Tour for our senior art elite students. They had opportunities to study in the art studios in Academy of Art & Design, Tsinghua University and Beijing Institute of Fashion Technology. Students also created their own art pieces under the guidance of local professors and master students. We also successfully accomplished the "Urban-rural Sustainable Life Community Art Project" organized and partly financed by YMCArts. The outcomes of these two art projects are exhibited in our Fashion Center currently. The outstanding work of S5D LAU Chi Ching Sandra won the Special Mention in Montessori Art World Award 2017 and S6D WONG Tsz Ho, S5B LEE Yeuk Hei and S5D TSANG Cho Yiu received Outstanding Awards in "The Exhibition of Secondary School Students' Creative Visual Arts Work 2016-2017". S4B TSUI Kai Yuen won the Champion in the Hong-Kong Avenue-of-Comic-Stars Life Drawing Competition 2017. Our S6 graduate Kelly Lau won the second runner-up in the Fur Design Competition 2017 and Excellence Design NexGen Award, the 40th Anniversary of Global Design Awards 2016. It was a true delight for the awardees as well as LTFC to have these outstanding achievements in our art education journey.
